(57) **CLAIM**

I claim the ornamental design for the thin mobile telephone, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the thin mobile telephone according to the present invention.

FIG. 2 is a front view of the thin mobile telephone in a closed state according to the present invention.

FIG. 3 is a side view of the thin mobile telephone in a closed state according to the present invention.

FIG. 4 is a back view of the thin mobile telephone in a closed state according to the present invention.

FIG. 5 is a side view of the thin mobile telephone in a closed state according to the present invention.

FIG. 6 is a top view of the thin mobile telephone in a closed state according to the present invention.

FIG. 7 is a bottom view of the thin mobile telephone in a closed state according to the present invention.

FIG. 8 is a back view of the thin mobile telephone in an open state according to the present invention.

FIG. 9 is a side view of the thin mobile telephone in an open state according to the present invention.

FIG. 10 is a front view of the thin mobile telephone in an open state according to the present invention; and,

FIG. 11 is a side view of the thin mobile telephone in an open state according to the present invention.

1 Claim, 4 Drawing Sheets
